

GeoTech 2015

Sensor Design Considerations for Unmanned Aerial System Platforms

George Mason University, Fairfax, VA
23-24 September 2015

Premier Mid-Atlantic
Imagery and GIS
Event

17th GeoTech Event hosted by the American Society for Photogrammetry and Remote Sensing (ASPRS) Potomac Region

Featured Keynote Speaker

Patrick Egan

- Editor of the Americas Desk at *sUAS News*
- Host and Executive Producer of the *sUAS News Podcast Series*, *Drone TV* and the *Small Unmanned Systems Business Exposition*

GeoTech 2015 is bringing together the platform and payload community with consumers of data generated using UAS systems

UAS Remote Sensing

Planned Topics

- Platforms
- Sensors
- Infrastructure Applications
- Energy / Resource Applications
- Environmental Applications
- Agriculture Applications

Plus

- Round Tables
- Networking
- Exhibits
- Demonstrations
